

Can you help?

We are looking for Health Education, Research and Awareness Volunteers

You will ensure that people from Nottingham's Black communities are making informed decisions to increase take up of the Covid-19 vaccine.

We are particularly looking for student volunteers and young people from Black African or Caribbean communities.

You will:

- ✓ provide outreach, support and information to people who are cautious about Covid-19 vaccination
- ✓ support promotion of, and engagement with, pop-up vaccination centres located in African and Caribbean community locations within Nottingham city
- ✓ be supported by Nottingham Community and Voluntary Service (NCVS) alongside the Majority Black Led Churches (MBLC)

To find out more, contact Oluwatobi Ojewola who is the Volunteer Co-ordinator for this project:
